2. Test Execution Summary

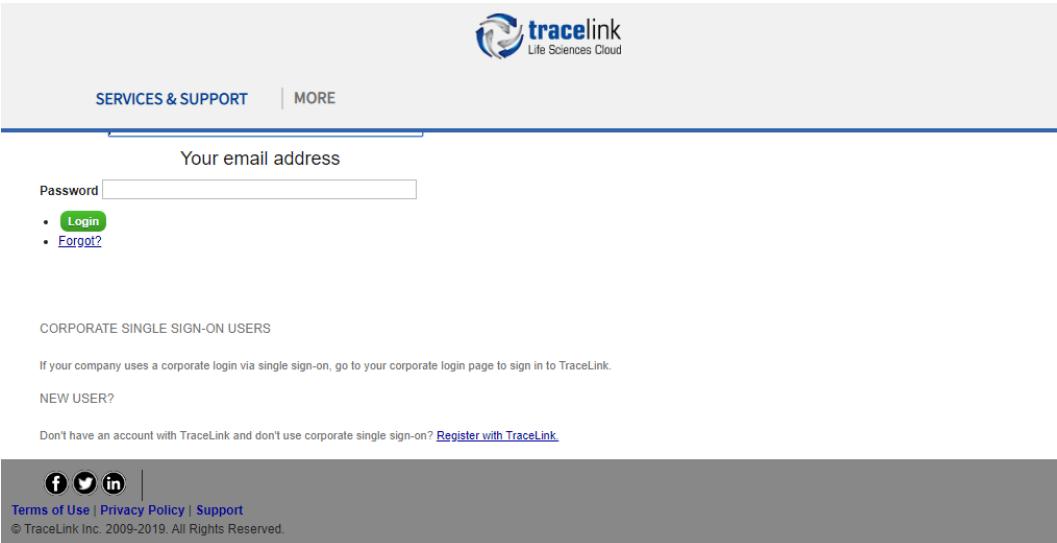

Test Case Title	Test Case Status	Test Case Results
Verification of system access and application version	Pass	Login to the TraceLink application is successful and application version is verified.
Verification of Serial Number Provisioning	Pass	Transaction details CSV file is Downloaded and contains the expected serial numbers that were provisioned
Verification of Disposition Assignment File	Pass	Transaction details XML file is Downloaded and serial numbers used are found in this file as expected
Verification of the Disposition Assignment Transaction	Pass	The transaction are received successfully by tracelink life science cloud
Verification of the unit level serial number provisioned in Allocation Report	Pass	Serial number requests exist for the randomly selected packaging code
Verification of the unit level serial number used in Allocation Report	Pass	Serial number requests exist for the randomly selected packaging code
Verification of the case shipper serial number provisioned in Allocation Report	Pass	Serial number requests exist for the randomly selected packaging code
Verification of the case shipper serial number used in Allocation Report	Pass	Serial number requests exist for the randomly selected packaging code
Verification of the Sales Shipment Sales Transaction in the SOM Module	Pass	The expected Sales Shipment Sales Transaction exists in the SOM Module
Verification of the Shipment Event Transaction in the SOM Module	Pass	The expected Shipment Event Transaction exists in the SOM Module
Verification of the serial number status for one of the serial numbers	Pass	Serial number is verified and match with expected input values
Verification of the Get Lot Status by Item Code and Lot Number	Pass	Lot Status is verified and asserted values match with expected input values

3. Test Case: Verification of system access and application version

3.1. Test Case Introduction

Test Objective	Objective is to access the system using login credentials and verify the application version.
Test Acceptance Criteria	Login to the TraceLink application is successful and application version is verified.
