1. Environmental Detail

1.1. Automation Model Version Release Details

Model Name	TraceLink_Qualification_Model
Model Version	2.0
Approved By	Giridhar Masireddy
Approval Date	04-MAY-2019

1.2. Test Execution Environment Details

Execution Time	(UTC) Coordinated Universal Time
Application Name	TraceLink
Application URL	https://itest.tracelink.com/
Application Version	Curie 4 Version 2019.4.0
Browser	Chrome
Server Name	NA
Server IP	NA
Plugins Used	Selenium, xUnit, C#.NET
Login User ID	bhaskar.kende@continuousvalidation.com
Execution Start	05-09-2019 12:11:04:816

TEST EXECUTION REPORT
FOR
TraceLink Life Sciences Cloud
New Release Qualification - ITEST Environment

Document #: CORP-VAL-CS-0011
Rev #: 00

Execution End	05-09-2019 12:18:27:781
Execution Duration	0 hours, 7 minutes, 22 seconds, 965 milliseconds
Execution Status	Completed
Passed Count	12
Failed Count	0
Total Tests	12

2. Test Execution Summary

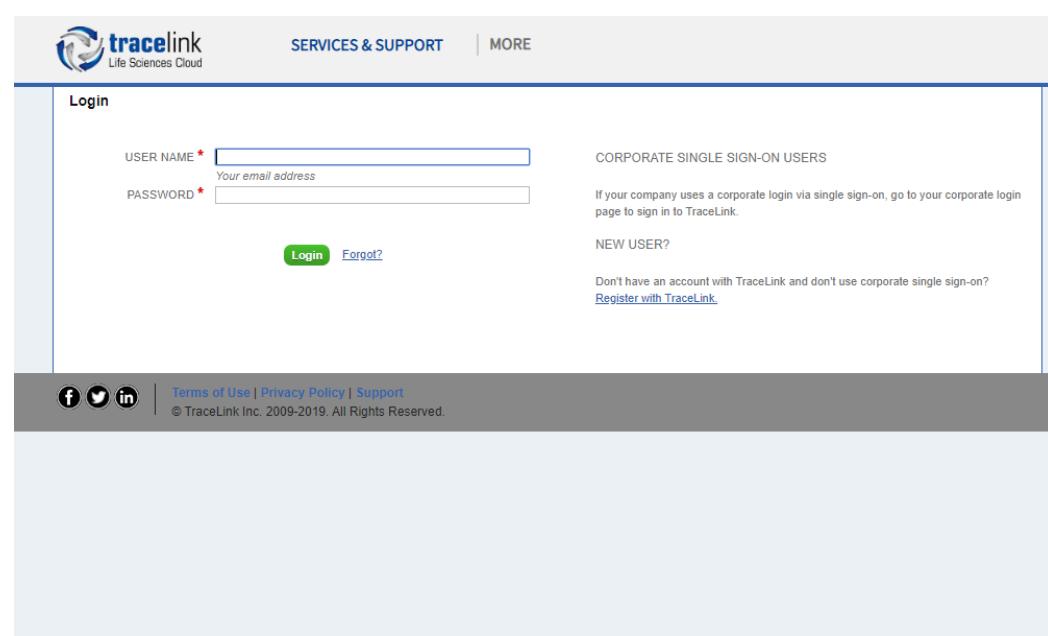

Test Case Title	Test Case Status	Test Case Results
Verification of system access and application version	Pass	Login to the TraceLink application is successful and application version is verified.
Verification of Serial Number Provisioning	Pass	Transaction details CSV file is Downloaded and contains the expected serial numbers that were provisioned
Verification of Disposition Assignment File	Pass	Transaction details XML file is Downloaded and serial numbers used are found in this file as expected
Verification of the Disposition Assignment Transaction	Pass	The transaction are received successfully by tracelink life science cloud
Verification of the unit level serial number provisioned in Allocation Report	Pass	Serial number requests exist for the randomly selected packaging code
Verification of the unit level serial number used in Allocation Report	Pass	Serial number requests exist for the randomly selected packaging code
Verification of the case shipper serial number provisioned in Allocation Report	Pass	Serial number requests exist for the randomly selected packaging code
Verification of the case shipper serial number used in Allocation Report	Pass	Serial number requests exist for the randomly selected packaging code
Verification of the Sales Shipment Sales Transaction in the SOM Module	Pass	The expected Sales Shipment Sales Transaction exists in the SOM Module
Verification of the Shipment Event Transaction in the SOM Module	Pass	The expected Shipment Event Transaction exists in the SOM Module
Verification of the serial number status for one of the serial numbers	Pass	Serial number is verified and match with expected input values
Verification of the Get Lot Status by Item Code and Lot Number	Pass	Lot Status is verified and asserted values match with expected input values

3. Test Case: Verification of system access and application version

3.1. Test Case Introduction

Test Objective	Objective is to access the system using login credentials and verify the application version.
Test Acceptance Criteria	Login to the TraceLink application is successful and application version is verified.

3.2. Test Execution Details

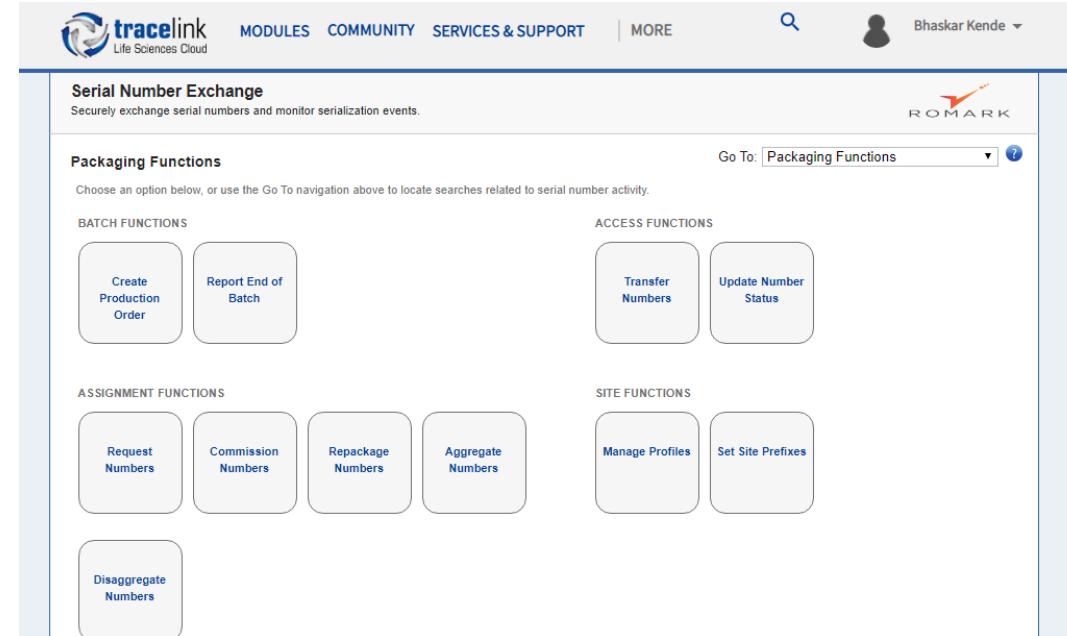

#	Step Description	Expected Result	Actual Result
1	Navigate to TraceLink login page.	TraceLink login page is accessed.	<p>05-09-2019 12:18:18:867 TraceLink login page is accessed.</p> <p>05-09-2019 12:18:18:867 Screenshot taken:</p>

8	Verify information on Get Allocation Report page for one of the records.	The information on the Get Allocation Report page is verified.	05-09-2019 12:12:16:607 05-09-2019 12:12:16:607	The information on the Get Allocation Report page is verified. Screenshot taken:  <p>The screenshot shows the TraceLink Life Sciences Cloud interface. At the top, there's a navigation bar with 'tracelink' and 'Life Sciences Cloud' on the left, and 'MODULES', 'COMMUNITY', 'SERVICES & SUPPORT', 'MORE', a search icon, and a user profile icon on the right. Below the navigation is a header for 'Serial Number Exchange' with the sub-instruction 'Securely exchange serial numbers and monitor serialization events.' To the right of this is the ROMARK logo. The main content area is titled 'Allocation Reports' with a sub-section 'Search Criteria'. Under 'Search Criteria', there are dropdown menus for 'SERVICELINK' (set to 'Romark Laboratories, L.C. - Aphena Pharma Solution') and 'PACKAGING CODE' (set to 'GTIN-14 10367546212210'). There are also 'Search' and 'Reset' buttons. Below this, a message indicates '1 Displaying 1-1 of 1 results Export Results to CSV' and a 'results per page' dropdown set to '50'. A table follows, with columns: 'Packaging Code', 'Last Updated', '% Available', 'Total Numbers Provisioned', 'Total Numbers Encoded', 'Total Numbers Deactivated', 'Total Numbers Commissioned', 'Total Numbers Decommissioned / Destroyed', and 'Total Numbers Transferred In / Transferred Out'. The table contains one row for 'GTIN-14 10367546212210' with values: Last Updated '19 Dec 2018', % Available '9', Total Numbers Provisioned '10', Total Numbers Encoded '0', Total Numbers Deactivated '0', Total Numbers Commissioned '1', Total Numbers Decommissioned / Destroyed '0', and Total Numbers Transferred In / Transferred Out '0'.</p>

11. Test Case: Verification of the Sales Shipment Sales Transaction in the SOM Module

11.1. Test Case Introduction

Test Objective	The Objective is to verify the Sales Shipment Sales Transaction in the SOM Module
Test Acceptance Criteria	The expected Sales Shipment Sales Transaction exists in the SOM Module

11.2. Test Execution Details

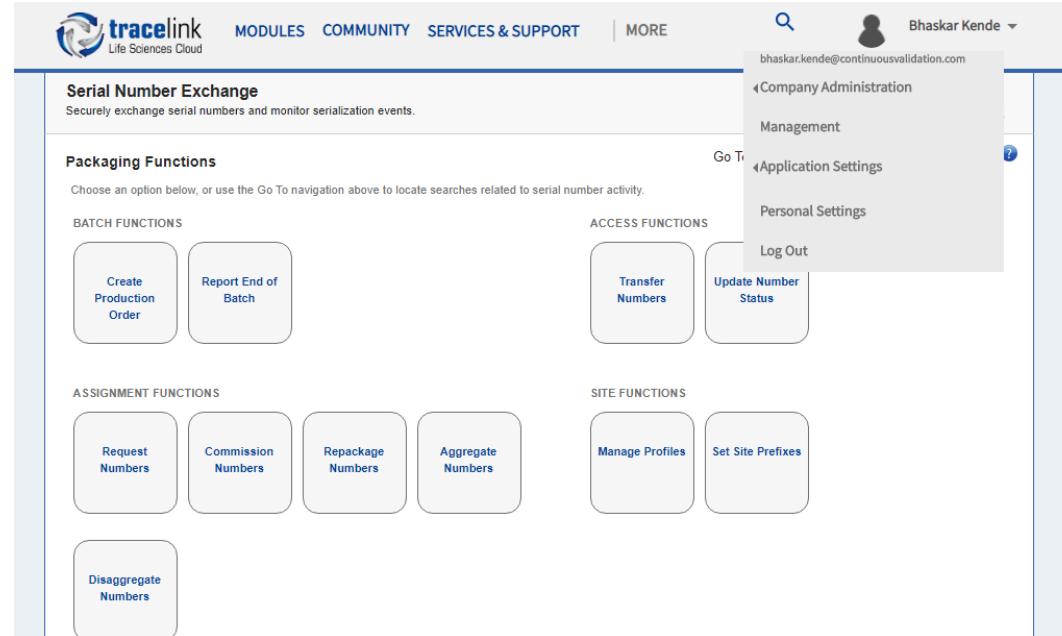

#	Step Description	Expected Result	Actual Result

4	Click on the Queries function group on SOM Page.	The Get Serial Number Status function is displayed.	05-09-2019 12:15:51:411 05-09-2019 12:15:51:411	The Get Serial Number Status function is displayed. Screenshot taken:  <p>The screenshot shows the TraceLink Serialized Operations Manager interface. At the top, there's a navigation bar with the TraceLink logo, 'MODULES', 'COMMUNITY', 'SERVICES & SUPPORT', 'MORE', a search icon, and a user profile for 'Bhaskar Kende'. Below the navigation is a header for 'Serialized Operations Manager' with the sub-instruction 'Securely exchange serial numbers and monitor serialization events.' To the right of the header is the ROMARK logo. The main area is titled 'Perform Serialized Operations' and contains a sidebar with several options: 'Status Update', 'Inbound Movement', 'Outbound Movement', 'Pack and Repack', 'Queries' (which is currently selected and highlighted in blue), 'Get Serial Number Status' (a link under 'Queries'), 'Get Serial Number History' (another link under 'Queries'), and 'Operational Reports'. A message at the bottom of the sidebar says 'Select a function from one of the groups listed to the left'. At the bottom right of the main area, there's a dropdown menu 'Show Data From:' set to 'Romark Laboratories, L.C.' with a small 'X' icon next to it.</p>
